

Counselling 2018: Preference sheet for BITSAT

BITSAT – Preference Order 1

This Preference order involves a precedence of Campus over branch, typically suited to those who are planning take up MBA or further studies ahead. Also, we have preferred 5 year courses in Pilani over 4 year Mechanical/Chemical/Manufacturing because there are chances that one can migrate to better branch (CS or EEE) with CGPA around 8.5 in 1st year. So it proves to be fruitful.

Some salient features of Dual Degree Program:

- If you want a particular engineering branch that you are not getting otherwise, it makes much more sense to choose a dual degree course than choosing a B. Tech 4 year course that is not of your choice because if you have a CGPA of around 8.5 after 1st year in a dual degree, then you can get any engineering degree of your choice (including CSE). However, if you want a change of branch (being a B. Tech 4 year course student), it takes a CGPA of around 9.8.
- All the students during JEE get a decent idea about the science courses. They study basic physics, maths and chemistry. However, they have no idea of the engineering courses. If a student is highly unsure as to what engineering branch to take, then it makes sense that he takes up a dual course (i.e., a science/maths course that he is interested in). It gives the student an extra year to think as to which engineering degree he wants to take up.
- And about the extra year that one has to spend as a dual degree student. Well, according to the BITS curriculum, you have to spend your 5th year complete either doing research thesis, or working in a corporate for industry work experience.

BITSAT – Preference Order 2

This Preference order involves a precedence of Branch over Campus, typically suited to those who are planning take up branch of their choice or are looking for placement after graduation. Here, CS at Goa/Hyderabad is preferred over EEE/EnI at Pilani assuming that placement is the main criteria and the student will be sticking to same branch, without considering any option of MBA.
